

## Bacchus Beyond Explore Tasting

# Classic French Whites

France has been the benchmark for fine wines and many new world wine makers have worked hard to use the classic white grape varieties of France (Chardonnay, Sauvignon Blanc, Viognier et al) to make great wines. Classic French Whites are not the cheapest option but they are worth seeking out, not least because they are designed to be the perfect partner with fine food, such as fish and white meats with rich sauces. French classics do not necessarily need to cost the earth but sometimes it is worth splashing out on a special bottle for that special occasion. This tasting has been designed to showcase a selection of French classic whites from across the Bacchus Beyond range which, we hope, offer both great quality and value.
