

Bacchus Beyond Explore Tasting

A Cape Crusade

You don't have to be Batman to join Bacchus Beyond's **Cape Crusade** to showcase some of the great wines of South Africa. The history of wine making in the Cape dates back to 1655 when vines were first planted by the Dutch East India Company while in the 19th Century Cape wines had a huge following in the UK. Fast forward to the end of the Apartheid era and South Africa has quite rightly earned great recognition for the quality and range of its wines made from local varieties such as Pinotage and international classics such as Shiraz, Cabernet and Chardonnay. Our **Cape Crusade** tasting includes eight white, pink and red wines from across our price families, made from the Western Cape to Elgin, using Chenin Blanc to Shiraz - don't miss it!
