

Bacchus Beyond Discover Tasting In The Pink!

We firmly believe there is much more **Oomph** in Pink wines than many may have found in the past or expect. Our **In The Pink** tastings are designed to showcase the many pleasures that wines designed to be neither Red nor White but somewhere in-between can offer. Bacchus Beyond is proud to stock a diverse range of Rose and Orange wines and we very much hope that this second tasting in the **In The Pink** tasting series will, if nothing else, make the case to our customers that there is much, much more to Pink wines than Californian Zinfandel Blush.
